UNISON RESEARCH

The Simply Italy is a gorgeous amp with wood trim and remote, a delicate sound, & enough current to drive most speakers. Tubes, Italian style. Hear why Sam Tellig and *Stereophile* give it a Class B rating. The S6 is even better, more power, more finesse, better looking, *Hi-Fi Choice* Editor's Choice and *Stereophile* Class A rated: "totally fatigue-free with surprising dynamics & bass." Unison Research celebrates its 25th year with the Triode 25, an all tube EL34 amp with 25 single-ended watts, or 45 ultralinear watts. A gorgeous amp, with USB DAC. \$4499 retail.

The UNICO Primo 80 watt hybrid Integrated Amp follows the Unico, Unico SE and Secondo, all having received glowing reviews for their tube lushness and solid state dynamics. *Stereophile* Class B Recommended! Another winner from Unison Research. MM/MC phono available. For more power try the new Unico Due, or the high current, high power Unico 90 or Unico 150 hybrids. Gorgeous amps! The new Unico Due Tube CD Player/DAC improves upon the Unico CDE. Italian beauties.

Simply Italy

TRIANGLE

The **Signature Delta** floorstanding speakers have received great reviews from *Stereophile*, *Hi-Fi +* and *What Hi-Fi*. Class A *Stereophile* Recommended Component, with superior "jump factor" and lows with "excellent pace and force". A magnificent speaker! **40th Anniversary Comete and Antal**, plus new Anniversary stands. The **Antal 40th Anniversary** is on the cover of *Stereophile's* 2022 Recommended Components! "They became a new frame of reference of what audiophile sound can be." The Esprit **Titus EZ** and **Australe EZ** are winners! The **Borea** line is very popular, and very good!

Delta

BELLES FROM POWER MODULES

The Belles **ARIA** solid state integrated amp is amazingly good. It is our best selling amp, by far. *Hi-Fi Choice* loves it. The best of tube and solid state sound. Also available are the new **ARIA Dual Mono Integrated**, **ARIA SIGNATURE**, **ARIA preamp**, **ARIA power amp**, and **ARIA monoblock amps**. Belles - made in the USA!

Belles ARIA

JOLIDA

The Foz XTR phono crosstalk reduction circuit is designed by Jim Fosgate, and only \$565. The new F159 Tube Phono Preamp with XTR is only \$1875. The new Fusion Integrated Amps are Jolida's best yet. We've been enjoying fine tube components from Jolida for over 20 years. They remain the most affordable tube gear available. The new F11, F22 and F35 integrated amps are Jolida's best ever. The FX Tube DAC DSD Wi-Fi does DSD with tubes for under \$1000. Affordable tube audio from JoLida!

Jolida FX-10

PHONO CARTRIDGES

Fine cartridges from Grado, Clearaudio, Rega and Goldring. The Goldring E3 is *Stereophile* Class B \$\$\$ and only \$189! The Clearaudios are fine moving magnets and moving coils with a transparent top to bottom sound. The Clearaudio Maestro v2 Ebony MM is a favorite of ours and very well reviewed! Rega MM cartridges have a big, slightly warm sound and are the best for Rega arms. New models are the Ania Pro MC and the top of the line Aphelion2 MC..
